very free to find its own functional forms. He thus nearly forces our agreement with his "in-between" position, which turns out to be both vague, eclectic and more governed by sociological factors than the author would like to admit. But all in all, the book provides a model presentation of both the dilemmas which biblical interpretation offers and the possibilities it creates for renewal and the deepening of our sense of the Church today.

Fr. James Reese, O.S.F.S., has put together a small but well-written book for those who preach the Gospel called **Preaching God's Burning Word** (Liturgical Press, Collegeville, no price). The author stresses faith conviction and intellectural curiosity in the preacher, and has good explanations of modern language theories about communication, on detecting the heart of the biblical message, and on biblical imagery. He also explains such difficult areas as the New Testament diversity and the concept of the Trinity. Reese gives flesh to the preacher as a prophet, not who foretells, but "forth-tells" the Word of God with a sense of urgency and with full conviction.

CONCLUSIONS

Naturally these are only a few of hundreds of recent books. They do however reflect the concern of today's scholars to raise old questions anew and probe every corner again. They range widely across historical, sociological, linguistic and theological inquires, and are just as surely ecumenical in denomination, including Catholic and Protestant scholars. Although ecumenical dialogue can be thorny, one area that commands wide agreement from Catholics and Protestants alike is the setting and original form of the message of the New Testament. We have learned this together. Nothing can be more valuable in taking the Word of God seriously than achieving the widest possible vision, both in terms of deepening our insights into the original setting of Jesus' Gospel and that of the early Christian community, and in terms of today's present needs. But the Scriptures do not speak out of time and place, as though isolated from the first preachers and receivers of the Gospel. Nor do they speak into a vacuum today. Even now they can only be read in the faith context of the Church whose book they are. If we deepen our understanding of the Scriptures, our sense of the continuity of the living faith will also be strengthened. ●
